The Progear Polarised Urban Collection

Progear Urban polarising sunglasses continue to shine on this summer with the latest and greatest sunwear styles hitting the range. Frames are manufactured from stainless steel with acetate temple end tips and TR90, an extremely durable material that is unusually flexible and lightweight, providing a very comfortable fit.

Quality sunwear all Rx glazeable.

A sunglass for everyone!

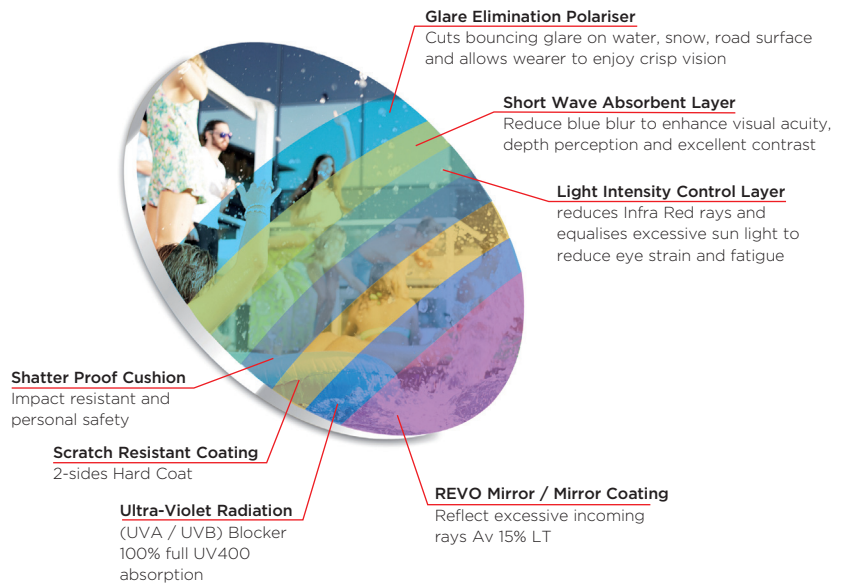

All models Rx-able. Some limited to Rx2 range.

Rx4 ±4.00 sphere with opposite cyls to 4.00

Rx2 ±2.00 sphere with opposite cyls to 2.00

Special nett complete package pricing

Higher powers and other lens forms - please refer to regular Rx catalogue.

Frame in featherlite TR90 material for lens retention, durability, and chemical resistance

Built-in one piece spring hinge (available on certain models)

Model U-1501

Progear Urban 12-pc Tray

Countertop Polarising Demonstrator

RX GLAZING

All Progear Urban range models are Rx glazable. For the majority of wearers these will fall within the package range stated. A restricted power range is available on those models coded 'wrap', where their extra head contouring curvature necessitates a higher front lens base curve, which means the Rx range is limited, only using higher index might be slightly increased. Other lens forms and higher powers outside the package arrangement can be made available.

Rx4 ±4.00 sphere with opposite cyls to 4.00

Rx2 ±2.00 sphere with opposite cyls to 2.00
