

NEW DIVE MASK

Distance and Reading Segment
Clip-on Rx Lenses

Custom bonded Rx Lenses

Distance

Reading Bifocal

Franklin Split

Norville is pleased to announce a new dive mask is now available. The ORCA is an adult dive mask suitable for up to 40m diving use. Supplied in gloss black, the silicone skirt and strap provide a comfortable fit, with a secure, easy to adjust strap.

The exterior Rx option is an innovative solution, using clip-on full size lenses, mounted to the outside of the mask, offering a convenient change capacity, also reducing the potential of fogging.

Custom bonded glass Rx options are available in Distance, and/or Bifocal, also Varifocal. Spot segments or Franklin Split elements can be bonded to the inside of the lens plates.

Features

- Tempered glass plano flat lenses
- High quality silicone skirt
- Designed to comfortably fit a wide range of facial profiles
- Easy to adjust strap
- Clip-on Rx lenses (available next day delivery)
- Available in -2.00 to -6.00 distance, and +1.50 to +4.00 segments (in 0.50Ds increments)
- Custom Glass bonded option available
- Supplied with storage box.
